To: PUBLIC SWIMMING POOL OWNERS/OPERATORS

From: Jennifer L. Hatley, REHS, Environmental Health

Subject: 2020 Pool Operation Season and Permitting Requirements

February 18, 2020

There are no new rules or changes to the 15A NCAC 18A .2500 Public Swimming Pool Rules for 2020.

*Please note that if your pool pump/motor has been replaced (every time the bonding wire is reconnected to the motor), an electrical inspection is required by law by a licensed electrician. Verification will be required.

*Nighttime inspections are required to determine lighting for pools before they can be allowed to operate at night.

The operation permit application can be found on the Cabarrus Health Alliance website

Please make sure that that the following items are in order at your facility before the permitting inspection:

- Required signage must be viewable from all of the pool entrances .2530 (c)
- The body hook pole must be a minimum of 12’ long .2530 (a)(1)
- The minimum diameter of the ring buoy rope must be ¼” .2530 (a)(2)
- When the skimmer equalizer VGB covers expire, the holes may be plugged, or plastered closed. No PDSC sheet will be needed when the lines are decommissioned.
- A working emergency phone with the address and the phone number of the facility visible at the phone area must be posted.

Your 2020 Operation Permit Application, current PDSC data sheet and permitting fees can be submitted by mail to the address below, email to jennifer.hatley@cabarrushealth.org or fax to 704-933-3379. Please make checks payable to: Cabarrus Health Alliance. Credit card payments can be processed by phone with the front desk administrative assistant by calling: 704-920-1207.

MAIL TO:
Cabarrus Health Alliance
Environmental Health
300 Mooresville Road
Kannapolis NC 28081

PERMIT FEES:
Swimming Pool - $250
Wading Pool - $60
Spa - $100
Wet deck - $100

Appointments are made on a first come first serve basis. A ready pool means that the water is circulating, the pool water chemistry is balanced, the water is clear and the emergency phone is operational. Call or email to schedule an opening inspection at your facility. I look forward to working with you this pool season.
